

COMMISSION REGULATION (EC) No 544/2006

of 31 March 2006

amending Regulation (EC) No 1043/2005 implementing Council Regulation (EC) No 3448/93 as regards the system of granting export refunds on certain agricultural products exported in the form of goods not covered by Annex I to the Treaty, and the criteria for fixing the amount of such refunds

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 3448/93 of 6 December 1993 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products ⁽¹⁾ and in particular the first subparagraph of Article 8(3) thereof,

Whereas:

- (1) Pursuant to Commission Regulation (EC) No 1043/2005 ⁽²⁾, refund certificates issued for a single budget period may be applied for separately in six tranches. A closing date applies for applications in respect of each of these tranches. Operators may submit an application for a refund certificate only in respect of the tranche corresponding to the first closing date following the date of submission.
- (2) The tranche system of allocation was designed to ensure that, in circumstances where refund certificate applications were received for greater amounts than can be granted, certificates were available both to operators who export at the beginning of the budget period and to those who export at end of the budget period.
- (3) If amounts in respect of which refund certificates may be issued remain available towards the end of the budget period, after completion of the six tranche allocation system, Article 38 of Regulation (EC) No 1043/2005 allows the Commission to open a weekly application system for allocation of the remaining amounts.
- (4) Recent reductions in the refund rates fixed in respect of agricultural products have led to a reduction in the amounts for which refund certificates are applied for under the tranche system. As a consequence amounts reserved for allocation under recent individual tranches have not been fully allocated.

- (5) It is therefore necessary to increase the flexibility of export operations. In circumstances where the level of refund certificate applications for an individual tranche is less than the amount available for that tranche, operators should be permitted to lodge applications on a weekly basis for refund certificates to be issued in respect of any remaining amount available for that tranche for which refund certificate applications have not yet been lodged.
- (6) The existing system for the allocation, on a weekly basis, of refund certificates in respect of the amount available at the end of the budget period should therefore be extended to the allocation of the remaining amount available for a particular tranche.
- (7) Regulation (EC) No 1043/2005 should therefore be amended accordingly.
- (8) The measures provided for in this Regulation are in accordance with the opinion of the Management Committee on horizontal questions concerning trade in processed agricultural products not listed in Annex I to the Treaty,

HAS ADOPTED THIS REGULATION:
