Subject: 2025 Agri-Food Strategy

Department of Health welcomes the agri-food strategy. From our perspective, food safety is the main area of interest in this strategy. Ireland has a well-earned reputation as a producer of high-quality food, helped in no small part by its excellent food safety system. We consider that in order to maintain this level of excellence, it is important to ensure continued good linkages between the key food safety bodies (DAFM/DoH/FSAI).
