Conversation: Deer management policy.  
Subject: Deer management policy.

I am concerned that the greater the requirement for licences, chaps etc that this will increase the amount of illegal hunting killing and maiming unless there are adequate consideration to stop the illegal trade with proper actions...there is little risk for poachers been caught with high returns from their illegal activity while those who comply with the mire of rules and regulations are been continuously harassed.  
No more regulations...use the present powers and stop poaching.
