File Ref: PA36/09

25th November 2009

Circular 14/2009

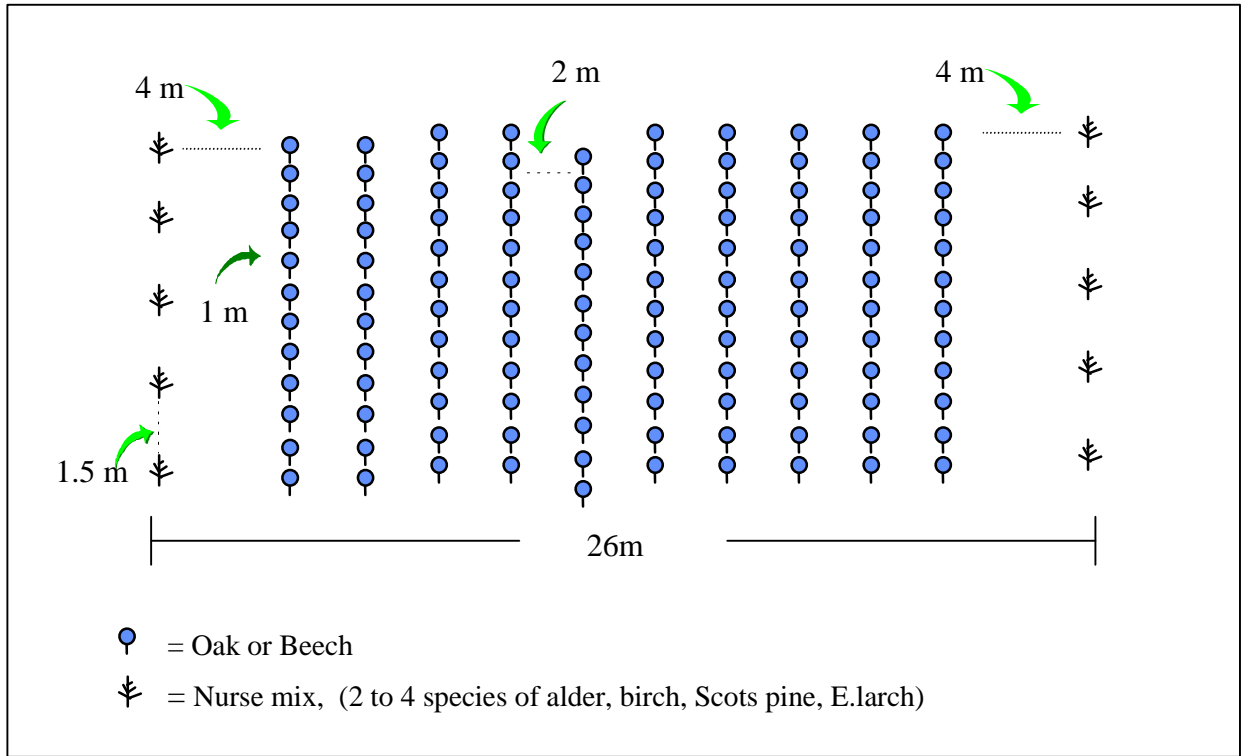

Interim oak and beech planting pattern

Please note that the mixture pattern outlined in Circular 9/2009 (Shortage of Scots pine and European larch plants issued 13/5/09) will apply to all approvals where oak or beech is proposed for planting until further notice.

Any oak or beech mixture, which deviates from the mixture pattern outlined in Circular 9/2009 must be discussed and agreed in advance with the Forest Service prior to planting. Please notify Forest Service immediately in writing where planting at the old pattern (i.e. alternate lines) has already started or has been completed but has not yet been grant aided.

Gerry Fogarty
Assistant Principal
Forest Service

Appendix to Circular 14 / 2009

Please note minor change in nurse mix (i.e. inclusion of an element of Scots pine)
