SCHEDULETERMS AND CONDITIONS TO APPLY TO 10-YEAR AQUACULTURE LICENCE FOR THE CULTIVATION OF ABOLONE AND SEA URCHINS IN TANKS AT MUINGS, BELMULLET, CO. MAYO, TO MR. ANTHONY BLOWICK.General

- 1.(a) This licence shall remain in force only for so long as the fish farm complies with both the planning permission granted by Mayo County Council on 14 March 2005 (ref. P05/123) or any subsequent reconfiguration permitted by the local authority, and the Effluent Discharge Licence granted by Mayo County Council (ref. W.P.(W)79, or a further such Licence granted by the said Council or by the Environmental Protection Agency.
- 1.(b) This licence shall be reviewed by the Minister not later than 3 years after the date of the start of the licence.
- 2.(a) The cultivation of abalone and sea urchins in tanks forming part of a re-circulation unit approved of by the Department of Communications, Marine and Natural Resources.
 - (b) Seed shall only be obtained from certified disease-free sources within Ireland or another Member State of the European Union and only introduced into the re-circulation unit with the written approval of the Department of Communications, Marine and Natural Resources.
 - (c) Any seaweed harvested for the purposes of feed to be harvested in accordance with guidelines set down by the Department of the Environment, Heritage and Local Government.
3. The Licensee shall indemnify and keep indemnified the State, the Minister, his officers, servants or agents against all actions, loss, claims, damages, costs, expenses or demands arising in any manner whatsoever in connection with the construction, maintenance or use of any structures, apparatus, equipment or other thing used in the exercise of the rights granted under this licence and the Licensee shall take all steps specified in order to ensure compliance with this condition.
- 4.(a) The Licensee shall ensure that no derelict or redundant structure, apparatus, equipment or thing associated with the fish farm is allowed to remain on the licensed area or on adjoining land and that any such structure, apparatus, equipment or thing is properly removed for proper disposal elsewhere.

- 4.(b) In the event of neglect or abandonment of the fish farm, the Minister shall take such action as he thinks fit (including revocation of this Licence or the disposal of any abalone or sea urchins or any structure, apparatus, equipment or thing there) and the Licensee shall be liable to reimburse the Minister in respect of the expense involved in so doing.
5. This licence is not to be construed as authorising the Licensee to interfere with or infringe in any way the rights of any other person.
6. The Minister shall be at liberty at any time to revoke or amend the licence if he considers that it is in the public interest to do so, or if he is satisfied that there has been a breach of any condition specified in the licence, or in the event of water quality results or general performance at the fish farm not meeting the standards set by the Department of Communications, Marine and Natural Resources (hereinafter referred to as the Department). Any such revocation or amendment shall be subject to the provisions of the Fisheries (Amendment) Act, 1997, or any amendment thereto.

Stocking etc.

7. No species other than abalone and sea urchins shall be bred or handled at the fish farm.
8. Such precautions shall be taken by the Licensee as the Minister may specify from time to time in relation to the introduction of abalone and sea urchins (including brood, spawn and larvae) into the fish farm including disease-free certification and any adaptation of methods of operation or type of installation at the fish farm.
9. No abalone or sea urchins (including brood, spawn and larvae) shall be sold or disposed of to any person or in any way transferred outside the fish farm (except in any case to which paragraph 15 refers) save in accordance with the prior written permission of the Department.

Hygiene, Fish Health & Monitoring of Water Quality

10. The Licensee shall make adequate arrangements for the hygienic operation of the fish farm (including proper selection and preparation of food, and proper treatment and disposal of wastes) and shall carry out any instructions issued in this connection by the Department.
11. The Licensee shall regularly update its comprehensive Emergency Plan which shall, in particular, provide for appropriate response to significant fish or other mortalities; fish or other disease; chemical spills; failure of ultraviolet disinfection equipment, or any other significant matters that could in the course of the Licensee's operations.

12. The Licensee shall make arrangements for the disposal of dead abalone or sea urchins in accordance with the applicable statutory provisions and requirements.
13. The Licensee shall carry out regular water quality and other monitoring at the hatchery in accordance with the specifications of the Department (including the essential reference standards against which the monitoring shall be carried out) and provide the results of such monitoring to the Department on request.
14. The Licensee shall notify the Department of Communications, Marine and Natural Resources, Coastal Zone Management Division, Leeson Lane, Dublin 2 and the Fish Health Unit, Marine Institute, Snugborough Road, Abbotstown, Dublin 15, within twenty-four hours of the appearance or suspected appearance of any disease or abnormal losses or mortalities at the fish farm and shall send samples to the Fish Health Unit at the above address in a prescribed manner as, and when, requested to do so and shall comply with any directions issued by the Department including the treatment, disposal or destruction of stocks of abalone or sea urchins at the fish farm in the interests of safeguarding the stocks of abalone and sea urchins in the State.

Special requirements on chemical usage

15. All chemicals, antibiotics and disinfectants used at the fish farm shall be used in accordance with instructions issued by the Veterinary Surgeon to the fish farm.

Inspections, records and returns

16. The fish farm and all equipment or premises used in connection with operations carried on at the fish farm and the records referred to in condition 18 shall be open to inspection at any time by any authorised officer (within the meaning of the Fisheries Acts), or any other person appointed by the Minister for the purpose.
17. The Licensee shall keep full records at the fish farm of:
 - all fish stripped, bred, held and handled at the fish farm;
 - the types and quantities of fish food used and the times of use;
 - all chemicals, antibiotics and disinfectants with which the stock have been treated, including types, quantities and times of use; and
 - the result of regular monitoring of water quality at the fish farm.
18. The Licensee shall furnish to the Department (Coastal Zone Management Division, Leeson Lane, Dublin 2) such returns from the records kept at the fish farm as may be required from time to time by the Department.

19. The Licensee shall not assign the benefit of the licence without the written consent of the Minister, such consent not to be unreasonably withheld.
20. In the event of the benefit of the licence being granted to a company (within the meaning of the Companies Acts, 1963 to 1999) the following condition shall apply, namely, the Licensee shall obtain the consent of the Minister to any proposed major change in the shareholding or control of the Licensee where such change substantially alters the identity of the Licensee.
21. In the event of the benefit of the licence being granted to a society (within the meaning of Section 2 of the Industrial and Provident Societies (Amendment) Act, 1978 (No. 23 of 1978)) the following conditions shall apply, namely,
 - (i) the rules relating to membership of the society shall enable any resident of the State to become a member of it where the resident fulfils all the conditions laid down by the society for membership of it and the rules shall not lay down different conditions for different classes of people;
 - (ii) the rules relating to the society shall be submitted to the Minister as soon as practicable after such assignment and the society shall not amend the rules thereafter, other than with the consent of the Minister; and
 - (iii) the Minister may, if he considers it necessary in the interests of good management of the licensed area, direct that an amendment may be made to the rules of the society, from time to time, and the Licensee shall amend the rules in accordance with that direction.

SCHEDULE

TERMS AND CONDITIONS TO APPLY TO A 10-YEAR FORESHORE LICENCE IN RESPECT OF SEAWATER INTAKE PIPE AND AN EFFLUENT DISCHARGE PIPE FOR AN ABALONE AND SEA URCHIN FISH FARM OPERATED BY MR. ANTHONY BLOWICK. AT A SITE AT MUINGS, BELMULLET, CO. MAYO.

General

- 1.(a) The Licensee shall use those parts of the foreshore, the subject matter of this licence, for the laying and maintaining of a seawater intake pipe and an effluent discharge pipe and for no other purpose whatsoever.
- 1.(b) The Licensee may use adjoining foreshore for the purposes of inspecting, maintaining or replacing the said pipes and shall restore that adjoining foreshore to its proper condition immediately after such use.
2. The Licensee shall cause the said pipes to be weighted to ensure that they remain submerged on the seabed at all times.
3. The Licensee shall provide and maintain such gratings or other devices at the point of water abstraction from the sea into the fish farm and also at a point as near as possible to the discharge of seawater as will effectually prevent the admission of any fish into the fish farm feed channels, the fish farm waste channel and other water courses and tanks of the fish farm.
4. The Licensee shall not allow any discharge into the sea or to other waters of blood from harvesting.
5. The Licensee shall at all times during the continuance of the licence keep the said pipes in a good and proper state of repair and condition to the satisfaction of the Minister and ensure that they will not be injurious to navigation, fisheries, the adjacent lands or the public interest, and shall comply with any directions which may be issued by the Minister from time to time in that regard.
6. The Licensee shall indemnify and keep indemnified the State, the Minister, their officers, servants or agents against actions, loss, claims, damages, costs, expenses and demands arising in any manner whatsoever in connection with the construction, maintenance or use of the inlet and outlet pipes or other thing in the exercise of rights granted under the licence.

7. The Licensee shall, at the expense of the Licensee, if so required by the Minister, and within three weeks after receipt of such notice or on determination of the licence from any other cause, remove the said pipes to the satisfaction of the Minister and if the Licensee refuse or fail to do so the Minister may cause the said pipes to be removed and the licensed areas restored and shall be entitled to recover from the Licensee as a simple contract debt in any court of competent jurisdiction all costs and expenses incurred by him in connection with the removal and restoration, and the Licensee shall take such steps as the Minister may specify in order to secure compliance with this condition.
8. The Minister shall be at liberty at any time to revoke or amend the licence if he considers that it is in the public interest to do so, or if he is satisfied that there has been a breach of any condition specified in the licence, or in the event of water quality results or general performance at the fish farm not meeting the standards set by the Department of Communications, Marine and Natural Resources. Any such revocation or amendment shall be subject to the provisions for the Fisheries (Amendment) Act, 1997, or any amendment thereto.
9. Any notice to be given by the Minister may be transmitted through the Post Office addressed to the Licensees at the last known address of the Licensee.
10. The Licensee shall not assign the benefit of the licence without the written consent of the Minister, such consent not to be unreasonably withheld.
11. The Licensee shall make arrangements for the disposal of all waste product generated in accordance with the applicable statutory provisions and requirements.
12. In the event of the benefit of the licence being granted to a company (within the meaning of the Companies Acts, 1963 to 1999) the following condition shall apply, namely, the Licensee shall obtain the consent of the Minister to any proposed major change in the shareholding or control of the Licensee where such change substantially alters the identity of the Licensee.

13. In the event of the benefit of the licence being granted to a society (within the meaning of Section 2 of the Industrial and Provident Societies (Amendment) Act, 1978 (No. 23 of 1978)) the following conditions shall apply, namely,

- (i) the rules relating to membership of the society shall enable any resident of the State to become a member of it where the resident fulfils all the conditions laid down by the society for membership of it and the rules shall not lay down different conditions for different classes of people;
- (ii) the rules relating to the society shall be submitted to the Minister as soon as practicable after such assignment and the society shall not amend the rules thereafter, other than with the consent of the Minister; and
- (iii) the Minister may, if he considers it necessary in the interests of good management of the licensed area, direct that an amendment may be made to the rules of the society, from time to time, and the Licensee shall amend the rules in accordance with that direction.
