PI3 serology

Histogram based on 2009 to 2013 Parainfluenza 3 antibody ELISA results

(all bovine animal types included, n=5170)

Once tested, ELISA results are recorded as Percent Positivity: PP%

Neg/Pos Cut-off: PP% = 20

25% of positive samples have PP% <= 83
50% of positive samples have PP% <= 110
75% of positive samples have PP% <= 130

All laboratory testing done at CVRL, Backweston
