Introduction

The following 2 schemes are governed by these Terms and Conditions

1. The Young Farmers Scheme
2. The National Reserve categories of Young Farmer and New Entrant

Terms and Conditions

Closing dates

1. Applications under the National Reserve and Young Farmer scheme must be submitted on or before 15th May 2019.

2. These Schemes are being implemented pursuant to Regulation (EU) No. 1307/2013, 639/2014, 640/2014, 809/2014, 1306/2013 and 2017/2393 as amended and will be operated by the Department of Agriculture, Food and the Marine. While this Terms and Conditions booklet has been prepared as a guidance to farmers, it should be recognised that the governing EU Regulations form the definitive basis for the administration of the scheme and decisions on eligibility for the scheme and for payment.

3. Applicants are required to be a holder of a registered herd number in order to qualify for the National Reserve and Young Farmers Scheme. Applications for a herd number, or to be included on an existing herd number, must have been received by the local DVO by 15th May 2019.

4. In the event that a herd number has not been assigned at the date of submission of the application under the National Reserve/Young Farmers Scheme, a facility is available via iNet for submission of such applications by registered Agricultural Agents.

5. Applicants should note the addition or removal of a name to/from an existing herd number, a change of legal entity, formation/dissolution of a registered farm partnership or any other amendment to the registration details of a herd number under which entitlements were held in 2018, requires a parallel change to the registration details of the entitlements. In such cases a transfer of entitlements application must be submitted by the 15th May 2019, or the entitlements will not be available to the transferee for use in 2019 and the 2019 Basic Payment shall issue to the transferor.

6. Applicants are required to have submitted a valid Basic Payment Scheme Application to the Department by 15th May 2019.

7. An allocation of entitlements from the National Reserve or an increase in the value of existing entitlements can only be made to a person who is an active farmer as defined in Council Regulation (EU) No 1307/2013.

8. An application will not be accepted or approval may be withdrawn if, in the opinion of the Minister or his officials, it is established that an applicant artificially created the conditions required to obtain grant aid with a view to obtaining an advantage contrary to the objectives of the Scheme.
9. Applications must be submitted online through agfood.ie. Therefore applicants must be registered for online services (OLS) with the Department. Instructions for registration can be found on www.agfood.ie or you can contact: agfood Online Services Helpdesk in the Department's Cavan Office, Lo call 0761 064424 or email agfood@agriculture.gov.ie

10. Applicants who wish to have an agent/agency apply online on their behalf must first be registered for online services (OLS) with the Department and be associated to that agent. Instructions for registration can be found on www.agfood.ie or you can contact: agfood Online Services Helpdesk in the Department's Cavan Office, Lo call 0761 064424 or email agfood@agriculture.gov.ie

11. Once you have submitted your application via iNet a record of the application will show under ‘Correspondence’ and applicants/agents are advised to access same to confirm that the application has been successfully submitted. This record is the only accepted proof of submission of an application via iNet under the 2019 National Reserve and/or Young Farmers Scheme. Only fully completed and submitted applications will be considered.

12. The online Services Helpdesk can also be contacted for information and support where issues arise in relation to Username or Password.

13. Applications not supported by all required documentation (with the exception of the 2018 Notice of Assessment for self-employed applicants which will not be available by the closing date) will be deemed as late and/or inadmissible. Penalties are applicable to late applications, as set out in the table below, and applications received 25 calendar days after that date are deemed inadmissible. Responsibility for the submission of applications to the Department by the closing date rests with the applicant concerned. A table of applicable penalties is set out at Table 1.

14. Applicants under the Schemes agree that the Department may exchange, request or access data held by the Department, or externally, in relation to them which are required for the purpose of assessment or verification of their application and/or eligibility under the Schemes.

15. In relation to applications from groups (e.g. joint herd number, a registered farm partnership or a company) documents and information submitted relating to applications made by these groups are submitted with consent of, and are available to, all members of the group and, where applicable, agents acting on behalf of the group.

16. Please take note of the important dates in respect of submission of an application under the 2019 National Reserve and/or Young Farmers Scheme at Table 2.

In the event the Young Farmers Scheme option is not available on the 2019 Basic Payment Scheme application for a continuing participant, the onus is on the applicant to submit a new application via iNet;
  
c) for applicants for whom there has been a change of registration to the herd number - submitting an application online via iNet.

1.2 Eligibility of Young Farmer(s) in a Group - Young Farmers Scheme

Where a young farmer undertakes the farming activity as part of a group e.g. in a joint herd number, a registered farm partnership or a company, the group will be considered eligible for the Young Farmers scheme if the following conditions are met;

- At least one person in the group must meet the definition of Young Farmer as outlined in section 1.1 above;

- That Young Farmer must exercise effective and long term control either solely or jointly within the group in terms of decisions related to the management, benefits and financial risks of the group. Such control is demonstrated as follows:
  
  o the young farmer’s name is on the herd number;
  
  o the young farmer’s name is on the bank account used for the purposes of the receipt of payments under the Basic Payment Scheme and Young Farmers Scheme.
Companies Only - the Young Farmer must be a Director and minimum 20% shareholder in the Company;

- The Secretary as listed in the B1 annual return for the application year may complete the NR/YFS Declaration form confirming that the young farmer has effective control, either solely or jointly with the other members of the group. Where the declaration form is not signed by the Secretary, all of the directors must sign the declaration form.

- all persons who participate in the group must complete a National Reserve/Young Farmers Scheme Declaration form confirming that the young farmer has effective control, either solely or jointly with the other members of the group. This declaration form is available with the scheme application form and on the Departments website and must be submitted with the Young Farmer Scheme application again.

The ‘five year’ payment/eligibility period will be calculated from the time the Young Farmer qualifies for Young Farmer Scheme eligibility in the group. In the case where a young farmer has already been carrying out an agricultural activity either individually or as part of a group/registered farm partnership/Company, this period of agricultural activity will be included in the calculation of the five year period.

In accordance with the conditions set out in EU Regulation 639/2014 eligibility for payment under the Young Farmers Scheme shall cease if the Young Farmer no longer has control either solely or jointly within the farming entity. Applicants are required to immediately inform the Department of Agriculture, Food and the Marine of such a change.

Also, any change to the registration details of the herd number or farming entity, for example 2018 Individual Applicant joining a registered farm partnership in 2019, Change of Directors in a Company, must be notified to the Department. A new or revised Young Farmers Scheme application may be required.

1.3 Documents Required in Support of an Application – Young Farmers Scheme

Depending on the farming entity applicants will be required to submit certain documents in support of their application as follows:

**Individual Young Farmer Applicant**

- Copy of the Educational Qualification where same is included in Appendix A or where the qualification is not included at Appendix A, a letter of equivalence from Teagasc confirming the educational qualification held by the applicant fulfils the requirements of the scheme (see section 1.4 below).

- In the event that the name of the applicant differs from that on the educational certificate, a copy of a marriage certificate/deed poll etc. shall be required.

**Young Farmer in a Group – Joint Herd number/Registered farm partnership/Company**

- Copy of the Educational Qualification or Teagasc letter of equivalence (see section 1.4 below);
✓ Long form birth certificate of the Young Farmer(s) in the group. In the event that the name of the applicant differs from that on the birth certificate, a copy of a marriage certificate/deed poll etc. shall be required;
✓ Where the first name recorded on the birth certificate differs from the name under which the application is made (e.g. formal first name versus common usage name) clarification is required;
✓ National Reserve/Young Farmers Scheme Declaration for the purpose of determining effective and long term control of the Young Farmer in the group (to be witnessed and stamped by a Solicitor) see section 1.2 above;
✓ **Joint Herd number Only** - In support of the Young Farmer’s claim(s) to have sole or shared financial control of the farming enterprise, documentation must be provided to confirm that the Young Farmer's name(s) is/are on the bank account to which payments from the Department issue, e.g. bank statement, letter from the bank, etc.
✓ **Company only – documentation** in support of the claim that the Young Farmer is a Director and minimum 20% shareholder in the Company.

Please note that during the processing of applications it may be necessary to request additional documentation from applicants.

### 1.4 Educational Qualification Requirements – Young Farmers Scheme

To be considered eligible under the Young Farmer Scheme an applicant must have successfully completed an agricultural qualification at FETAC Level 6 or its equivalent by 15th May 2019 and must submit a copy of such qualification/Teagasc letter of equivalence in support of their application.

A list of acceptable courses is set out in Appendix A. Where the qualification is not included at Appendix A, a letter of equivalence from Teagasc confirming the educational qualification held by the applicant fulfils the requirements of the scheme must be submitted.

Where an applicant has completed the course by the 15th May 2019 but has not received final certification, please submit Confirmation of Education Form which is available for downloading on the online application facility and on the Department’s website.

### 1.5 Young Farmers Scheme Payment

The Young Farmers Scheme payment will be calculated as 25% of the national average payment per hectare (based on the national ceiling) multiplied by the number of entitlements activated by the successful applicant, subject to the maximum number of 50 activated entitlements whether individual, group, company or registered farm partnerships.

For applicants who set up as head of an agricultural holding for the first time in the period 2010-2013, the five year eligibility period for payment is reduced by the number of years which have elapsed between the setting up as head of the holding and the first submission of an application under the Young Farmers Scheme.
A successful applicant who commenced farming from 2014 onwards, and who submits his/her first Young Farmers Scheme application within five years of commencement of farming, may receive payment under the Young Farmers Scheme for five years.

1.6 Inspections

Applicants under the Young Farmers Scheme are subject to administrative checks. In addition, in line with EU Regulatory requirements, a minimum of 5% of applicants will be selected for an on the spot inspection to ensure compliance with the rules of the scheme. Documentary evidence to verify that the ‘young farmer’ is solely or jointly in control of the holding will be sought as part of the inspection process. In this regard, irrespective of whether the young farmer is solely or jointly in control of the holding, there is a requirement to demonstrate such managerial and financial control. This includes the young farmer’s name on invoices and receipts and on the bank account used for all the transactions or business of the holding.

In the case of administrative checks applicants may be asked to submit original hard copies of supporting documentation for verification purposes.

The on-the-spot inspection will involve two elements as follows:

(i) a check to determine if the land declared is eligible, which can be undertaken by means of field visits on the ground or by means of Remote Sensing using up-to-date satellite imagery;

and

(ii) a check to see if the young farmer is in managerial and financial control, either solely or jointly with others as the case may be, by means of a visit to the holding(s). In addition they will be asked to provide original documentation to demonstrate that they meet the age and educational requirements. In the case of a share farming arrangement they must provide a copy of the agreement for inspection.

With regards to managerial control applicants will have to demonstrate that they are actively involved in the running of the farm and show full knowledge of the day to day management of all enterprises on the holding (including in the case of Joint herds and Companies). In the case of Partnerships and Sharefarm arrangements, applicants will be required to demonstrate knowledge of all the enterprises for each herd number in the Partnership/ Share farm. Applicants may be required to provide documentary evidence of managerial control.

Applicants will also be required to provide documentation to demonstrate full financial control (solely or as part of a group). Evidence of full financial control can be demonstrated by providing bank statements in the applicant’s name, showing all farm business related financial transactions, which can be cross referenced to sales/income/input purchase documentation. A sample of such farm business financial transactions will be checked at inspection and traced through the bank account in the name of the applicant.

Where the application is based on leased/rented/commonage land or grazing rights the applicant may be required to provide land tenure documentation including title documents in the case of commonage and grazing rights including title documents in the case of the latter two.

Where a herd number that is registered on behalf of a group applies under the ‘new entrant’ category, all persons in control of the group must meet all conditions of the ‘new entrant’ category with the exception of the educational requirement.

At least one of the persons in control of the group must have successfully completed a recognised course of education in agriculture giving rise to an award at FETAC level 6 or its equivalent. In the case of a group which commences its agricultural activity in 2017 or later, all persons in control of that group must not have engaged in any agricultural activity in their own name and at their own risk, or have had control of another legal entity engaged in such agricultural activity, in the five years preceding the start of the agricultural activity of the applicant.

3.2 Documents Required in Support of an Application – New Entrants Category

Depending on the farming entity applicants will be required to submit certain documents in support of their application as follows:

Individual New Entrant Applicant

✓ Copy of the Educational Qualification where same is included in Appendix A or where the qualification is not included at Appendix A, a letter of equivalence from Teagasc confirming the educational qualification held by the applicant fulfils the requirements of the scheme (see section 3.3 below).

✓ In the event that the name of the applicant differs from that on the educational certificate, a copy of a marriage certificate/deed poll etc shall be required
New Entrant in a Group – Joint Herd number/Registered farm partnership/Company

- Copy of the Educational Qualification or Teagasc letter of equivalence (see section 3.3 below);

- Company Only – documentation in support of the claim that the Young Farmer is a Director and minimum 20% shareholder in the Company;

Submitted applications that do not have all the required supporting documentation by the closing date will be subject to penalties and after 25 calendar days will be deemed inadmissible.

Please note that during the processing of applications it may be necessary to request additional documentation from applicants.

3.3 Educational Qualification Requirements – National Reserve New Entrant Category

To be considered eligible under the National Reserve New Entrant an applicant must have successfully completed an agricultural qualification at FETAC Level 6 or its equivalent by 15th May 2019 and must submit a copy of such qualification/Teagasc letter of equivalence in support of their application.

A list of acceptable courses is set out in Appendix A. Where the qualification is not included at Appendix A, a letter of equivalence from Teagasc confirming the educational qualification held by the applicant fulfils the requirements of the scheme must be submitted.

Where an applicant has completed the course by the 15th May 2019 but has not received final certification, please submit Confirmation of Education Form which is available for downloading on the online application facility and on the Department’s website.

3.4 National Reserve – Off Farm Income

A gross off farm income limit of €40,000 will apply to applicants to the National Reserve. Applicants may chose to use either the full 2017 or 2018 tax year, whichever is more advantageous to the applicant, for this purpose.

In order to demonstrate eligibility under the income limit threshold, applicants will be required to submit supporting documentation as provided by the Office of the Revenue Commissioners, or equivalent if income was earned in another jurisdiction, including but not limited to:

- P60 / P21 / Form 11

Certain Department of Social Protection payments including, Jobseekers Allowance, Jobseekers Benefit, Pre-Retirement Allowance, Supplementary Welfare Allowance, Maternity Benefit, Jobseekers Benefit and Short Term Enterprise Allowance are reckonable as off-farm income. Applicants must provide a statement from the Department of Social Protection setting out details of such payments or confirming that no such payments have been received. In this regard, applicants can generate such statements from the Department of Social Protection facility mywelfare.ie when registered for a Public Services Card. Details of the process of application for a public services card are available on www.mywelfare.ie.
For those applicants who are farming as part of a group or as a Company, off farm income is determined as follows:

- **Joint herd number** – the gross off-farm income of all members of the group are taken into consideration (€40,000 limit applies to the group);

- **Company** – the gross off-farm income of the Company (where the Company was established in the relevant tax year) and the gross off-farm income of the Directors are taken into consideration

- **Registered Farm Partnership** – off-farm income of all new entrant participants.

Please note that in determining the off farm income of the applicant, the complete tax year of 2017 or 2018 will be considered and the applicant must provide supporting documentation to cover the entire period i.e. 52 week period.

It may be necessary to request additional documentation from applicants to establish the total gross off farm income earned by the applicant for the complete tax year of 2017 or 2018. Such documentation is not limited to that set out above. The gross off farm income thresholds apply to income earned in Ireland or any other jurisdiction.
Section 4: National Reserve – Allocations

4.1 Allocation/Top-Up to the Value of Entitlements from the National Reserve

Successful applicants under the National Reserve will be eligible for an allocation of entitlements on land for which they hold no entitlements and/or a top up to the value of existing entitlements held by them, where such entitlements have a value below the National Reserve National Average. A maximum number of entitlements/top-ups allocated per applicant will be applied under the National Reserve and will be dependent on the number of applications received. Allocation of new entitlements will be on the basis of one entitlement for one hectare of eligible land declared on the Basic Payment Scheme application for which the applicant(s) holds no entitlements.

Successful applicants who already hold existing owned entitlements with a value below the National Reserve national average value will receive a top-up whereby the value of those entitlements will be increased to the national average value.

Successful applicants who hold leased entitlements that have a value below the National Reserve national average will qualify for a top-up to the value of these leased entitlements. A top-up to the value of existing low value leased entitlements shall remain for the duration of the lease.

Please note that in the case of a Registered Farm Partnership entitlements and/or top-ups to the value of entitlements will be allocated to the herd number on which the qualifying Young Farmer(s) is named within the Registered Farm Partnership only. Multiple allocation thresholds do not apply where multiple herd numbers, with more than one young farmer, exist within the Registered Farm Partnership.

4.2 Current and Future Value of National Reserve Entitlements.

The value of entitlements allocated from the National Reserve, and the value to which existing entitlements are increased, shall be fixed at the National Reserve national average in the year of allocation and shall be subject to annual modifications.
5.1 Applications

Applications and supporting documentation for both the National Reserve and the Young Farmers Scheme must be submitted on-line.

Where the Department identifier (Herd number/Registered Farm Partnership number) is registered in multiple names, applications submitted quoting that identifier are deemed to be submitted with the consent of all registered owners, e.g. in the following cases:

- ✓ where the Department identifier is registered in more than one name, i.e. Joint herd number,
- ✓ in the case of registered farm partnerships, by all Partners,
- ✓ in the case of Companies, by the Company Directors.

Where a registered farm partnership wishes to submit an application for the National Reserve or Young Farmers Scheme the application must be submitted using the registered farm partnership number as designated by the Department of Agriculture, Food and the Marine.

Applicants for whom there has been a change of registration to the herd number for the new Scheme year and who intend to apply for continued participation in the Young Farmers Scheme are required to submit a new application online via iNET.

5.2 Correspondence from the Department

All correspondence from the Department relevant to an application will be online via iNet. The applicant will be notified by text message to advise that correspondence from the Department is available on iNet.

5.3 Responsibility of Applicant and/or Agent

The Department and/or its officials shall not accept any responsibility for errors or omissions contained in application for these Schemes or any required supporting documentation.

It is the responsibility of applicants to familiarise themselves with the Terms and Conditions of these schemes and to ensure applications are submitted in full and on time.

Applicants shall immediately notify the Department of any change to the applicant/farming entity that may impact on his/her eligibility for the scheme applied for. Failure to do so may result in the recoupment of National Reserve allocations/Young Farmer Scheme payments if it is later determined that such a change rendered the applicant ineligible.

5.4 Amending a Submitted Application

Applicants will not be able to amend applications following submission, with the exception of the uploading of required supporting documentation up to the 9th June 2019. For this reason applicants are advised to ensure that the application is completed fully and accurately prior to submission.
5.5 Multiple Applications
Applicants may only benefit once under the Basic Payment Scheme National Reserve. Therefore a successful applicant under a previous Basic Payment Scheme National Reserve will not be able to benefit from the 2019 National Reserve. In addition a successful application under the 2019 National Reserve will exclude the applicant from having future applications considered for allocation.

5.6 Penalties for Late Applications
There will be a 25-calendar day period after the closing date for the acceptance of late applications. However, a fixed percentage penalty per working day that the application is received late will apply during this period. For the National Reserve the fixed percentage penalty stands at 3% and 1% for the Young Farmers Scheme. Please note that in both cases penalties are applied to payments resulting from successful application to the scheme in question and not a permanent reduction in the number/value of entitlements.

Please note that applications are considered in their entirety.

Except in cases of force majeure, as defined in accordance with the relevant EU Regulations, applications will be inadmissible after this 25 calendar day period has ended.

5.7 Withdrawal of Approval
Approval under these schemes may be withdrawn if the applicant fails to abide by the terms and conditions of the Scheme or in the event of any material change in the circumstances of the applicant or of the farm business or in any other respect, which would be in conflict with the terms or the conditions of the Scheme(s). In such event any allocation from the National Reserve, monies paid on such entitlements and/or monies paid under the Young Farmers Scheme shall be recouped.

5.8 Recovery of Unduly Allocated Entitlements
In accordance with Council Regulation (EU) 1306/2013, where it is established that an incorrect number of entitlements has been allocated to an applicant from the National Reserve such incorrectly allocated entitlements and the associated payments shall revert to the National Reserve.

5.9 Circumvention Clause
In accordance with Council Regulation (EU) 1306/2013, no allocation of entitlements, top-up to the value of entitlements or Young Farmers Scheme payment shall issue to applicants for whom it is established that they artificially created the conditions required for obtaining such allocation/top-up/payment with a view to obtaining an advantage contrary to the objectives of the National Reserve and/or Young Farmers Scheme. One example of circumvention is the removal of existing entitlements from land for the purpose of creating ‘naked land’ upon which a National Reserve allocation may be made.
5.10 Review of Terms and Conditions/Procedures

The Minister reserves the right to alter the terms and conditions and procedures of the Schemes at any time. The decision of the Minister on any matter relating to these schemes shall be final.

5.11 Statutory Instrument – False Declarations

The Minister for Agriculture, Food & the Marine has implemented Regulations, which will make it an offence for an applicant to knowingly make a false declaration. It is also an offence for a person to assist an applicant to commit an offence under the Regulations. Applicants should familiarise themselves with the European Communities (Direct Support Schemes) Offences and Control Regulations S.I. No 115 of 2012.

In many instances the requesting body has powers under its own governing legislation to make such requests for information. If the Department receives any information which leads it to believe that a criminal offence may have taken place it will use all data available, including personal data, to pursue any necessary
investigation and/or prosecution as provided for under the terms of the Law Enforcement Directive (EU 2016/680).
