

DAFM Farm Walks for Twite, Corncrake and Grey Partridge Farmland Birds.

The Department of Agriculture, Food and the Marine (DAFM), in consultation with National Parks and Wildlife Service (NPWS) and BirdWatch Ireland (BWI), introduced specific farmland bird prescriptions within the GLAS scheme for Twite, Corncrake and Grey Partridge.

To provide information on best practice for existing and future GLAS participants in the delivery of farmland bird prescriptions, the Department, in conjunction with NPWS, BWI and other experts, are running a number of Farm Walks in the coming weeks in Mayo, Donegal and Offaly.

The objective of the farm walks is to provide information on Twite, Grey Partridge and Corncrake, as to why they are included as a Tier 1 priority within GLAS and to explain to farmers who wish to join the GLAS scheme what they must do to comply with the scheme specification in order to draw down their GLAS payments.

Farmers that are currently participating in GLAS that have the Twite, Grey Partridge or the Corncrake as GLAS actions on their GLAS are also invited to attend.

At the end of each of the Farm Walks, there will also be an opportunity for general Q&A on the GLAS scheme.

The schedule for the Farm Walks is set out in the following table:

Co. Donegal
