

Minister Pippa Hackett,

As a Councillor for Galway City I have seen the positive impact public submissions and appeals have had in ensuring good practice of implementing environmental law is followed.

I would recommend completely scrapping this bill. It is not the right approach. It is not the right priority. The consultation has been completely subpar.

There is no amending this bill to make it work. It's goals are unacceptable and I hope you will stop it's progress.

Is Mise Le Meas,
Councillor Owen Hanley
