

**Hall Transport Ltd**

A Chara,

As a company we are very heavily involved in the haulage of both timber from the forests to the sawmills and sawn timber from the sawmills to the end user we are very much in favour of this amendment.

The jobs of our drivers and other staff and indeed the company itself would be in severe danger if this amendment is not implemented. This would be a loss that could not be easily replaced as most of us live in areas where it would not be easy to find other work for the people or the trucks.

Regards,]
