

Greenbelt

To whom it concerns:

It is vital that this bill is passed to create changes. As it is there are unacceptable delays in getting:

Felling Licenses,

Road approvals

Afforestation approvals.

If changes don't occur immediately thousands of jobs in the industry will be lost. These includes foresters, sawmill workers, forest nursery workers, harvesting contractors, manual forest workers, machine drivers, thousands of administration staff, etc.

I am a forester. My job is also at stake. Please get this bill passed.

Yours sincerely

Greenbelt.
