

Arbor

To Whom it may concern,

I welcome the upcoming bill and look forward to it having a positive impact on the forestry sector. I am 30 years old and have been working in the industry for 8 years. I have no other qualifications and rely on the forestry sector heavily as my family and I are dependant on it. In recent times due to the lack of felling licences and a lengthy appeals process I find myself struggling to maintain a steady work load in order to secure my Job. If vital legislation isn't implemented soon I fear I will be left redundant. I plead with those responsible to act in a swift and fair manner in order to ensure that a once thriving industry can get back on its feet soon.

Regards
