

Eldron Logs Ltd

To whom it may concern,

I [REDACTED] am writing this to express my huge concern in changes needed to be made in FAC.

I'm a director of a timber harvesting company Eldron logs Ltd, which is under huge pressure due to the long delays in felling licences, leaving the company with no work, caused by FAC.

It is vital that the FAC is reformed to make it fit for purpose as my, my family and alot of other people's livelihoods are at stake here.
