

Greenbelt Ltd

To Whom It may concern.

I wish add my voice in support of the proposed legislation change regarding the Forestry Appeals Committee.

The current situation is untenable and livelihoods are being ruined around rural Ireland because of the current beaurorcratic nightmare created by the Forest Service.

The current system is clearly not fit for purpose and Meaningful change must be made immediately to rectify the situation otherwise the industry will suffer irredeemable losses in expertise and manpower.

Regards,
Greenbelt Ltd.
